RangeChallenge and Achievement	Technical Approach	Critical Interpretation	Report Presentation
<ul> <li>Ambitious, challenging project that achieves all of its aims</li> <li>Could form basis for an academic paper or commercial product</li> <li>Quality consistent with early career PhD student/high ranking employee</li> <li>Substantial volume of self directed work</li> <li>Goes significantly beyond the scope of the degree program</li> <li>Could be used as a clear example of a model project</li> </ul>	<ul> <li>Your project's findings represent or advance state-of-the-art</li> <li>Methodology, tools, and techniques are well motivated and employed correctly throughout</li> <li>Approaches are well motivated and alternatives considered when appropriate</li> <li>Very strong command of the relevant tools and techniques with clear evidence</li> <li>Technical material is handled in a clear and convincing fashion throughout</li> </ul>	<ul> <li>Extremely well-designed and well-executed comprehensive evaluation</li> <li>Metrics and techniques are appropriate and generate interesting conclusions</li> <li>Strong reasoning behind conclusions, supported by effective analysis</li> <li>Sophisticated and deep critical appraisal that aligns with aims and literature</li> <li>An appreciation of the relevance of the results for future work</li> </ul>	<ul> <li>The dissertation is clear, accurate and engaging</li> <li>Quality of the presentation is extremely high</li> <li>Very few, if any, problems with spelling/grammar</li> <li>Visualisations are creative, effective, and developed by the student</li> <li>High visual consistency of all visualisations throughout</li> <li>Literature review is strong, relevant, and extensive</li> <li>Appropriate prior work is properly cited</li> <li>Chosen prior work shows strong understanding of the wider context</li> <li>The student can answer questions on their topic without significant prompts</li> <li>The student's viva performance is excellent, showcasing their knowledge of the project well.</li> </ul>
70- • Ambitious, challenging	• The project's findings are	• A suitably well designed and	• The dissertation is mostly clear,

executed evaluation

• Metrics and techniques are

appropriate and generate sensible conclusions

• Conclusions are supported by

argument and evidence

appraisal that aligns well

• Sophisticated critical

with the project aims • Identifies relevant future work

and open problems

accurate, and engaging

• Quality of presentation is high

throughout the dissertation

• Chosen prior work shows good

• Few spelling/grammar mistakes

• Visualisation and illustration is effective

• Literature review is strong and relevant

• Appropriate prior work is properly cited

understanding of the wider context

• The student can answer questions on

their topic without significant prompts

• The student's viva performance is really

good, they clearly know their project.

useful

• Methodology, tools and
